

### **Introduction**

Autographix is a brand from Classic Stripes Ltd., India's largest manufacturer of bike and car decals. We maintain the highest standards of quality and have received IMS Certification which include ISO 9001: 2000, ISO 14001: 2004 and OHSAS 18001: 2007. We have been recognized the world over for our screenprinting technology having won the 'The excellence in four colour printing award' – FESPA among various other awards.

Autographix products are available across the country with a dealer network of over 2000 car accessory outlets.

Autographix newly introduces **Clear Shield - A Scratch Protection Kit**, which provides your car total protection from scratches without compromising on the aesthetic appeal. It is a transparent protective kit designed to guard against those nasty scratches that occur at the most vulnerable areas of your car.

### **Autographix Other Range Of Products**

- Car Graphics • Bike Graphics • Dashboard Trims
- Window Films • Bonnet Wraps • Partial Wraps

## **ClearShield**

**SCRATCH PROTECTION KIT**

A complete protection against those nasty scratches that occur at the most susceptible areas of your car

### Features

- **Unique concept to offer a homogeneous look**  
Clear Shield is a complete kit for protecting various parts of the car yet retaining the original look for your car
- **Transparent to match the body colour**  
It is a transparent material which when applied will take the body colour of the car. This will ensure that the visual appeal of your car is not lost.
- **Self Adhesive**  
These are self adhesive protectors, which on removal will leave no residue or stains on the car
- **Total Protection**  
Protect all the susceptible areas of the car from scratches namely bumpers, doors edges tail lights and side mirrors

### Application Instructions

- Clean the surface with a clean dry cloth to remove any dust or grease.
- Position the protector strip on the surface area and remove the release film without touching the adhesive on the protector
- Fit the protector in position and press firmly with a clean dry cloth.
